

mconlight

What is Moonlight?

Moonlight is an online marketplace that connects people with trusted photographers, videographers, and creative spaces to capture meaningful moments—whether personal or professional.

From events and lifestyle shoots to branded content, Moonlight simplifies the way people book creators—**on demand, anytime, anywhere.**

The Problem

Creators waste time managing bookings manually

Creators still rely on DMs, texts, spreadsheets, and disconnected tools to manage clients and bookings.

Payments are inconsistent and insecure

Late payments, no-shows, chargebacks, and off-platform transactions create unstable income for creators.

Getting discovered is difficult

Talented creators struggle with visibility across saturated, algorithm-driven social platforms.

Revenue growth is unpredictable

Freelancers often operate project-to-project without reliable tools to help them scale revenue consistently.

Workflow management is fragmented

Creators juggle contracts, communication, galleries, invoicing, and delivery across multiple platforms.

Discovery is fragmented across multiple platforms

Users bounce between Instagram, Google, TikTok, referrals, and random websites to find creators.

Pricing lacks transparency

Hidden pricing, unclear packages, and manual negotiations create friction and wasted time.

Booking is slow and manual

Traditional booking relies on DMs, emails, delayed responses, and back-and-forth coordination.

Trust between clients and creators is inconsistent

Clients face fake portfolios, unreliable communication, and limited creator verification.

Content rights and ownership are often unclear

Usage rights, ownership, and commercial permissions are often misunderstood or undocumented.

Why use Moonlight?

Client Benefits:

- ✓ No more complex search or scattered platforms
- ✓ Transparent pricing with no surprises
- ✓ Easy, instant booking process
- ✓ Verified professionals you can trust
- ✓ Protection from content theft and usage rights confusion

Creator Benefits:

- ✓ Hassle-free booking and scheduling tools
- ✓ Secure and fast payments
- ✓ Increased visibility and demand
- ✓ A reliable platform to grow revenue
- ✓ Tools to manage workflow like a business

The Moonlight Cycle

Moonlight enables the full lifecycle of booking and delivering visual content — from discovery to payment.

Market Opportunity

In the U.S. alone, there are **1.2M** photographers—and that number is growing.

Growth is being driven by social media, creator economy expansion, TikTok/Reels/YouTube demand, business marketing content, events, and streaming media.

U.S. Photography + Videography Market (2025)

\$37 Billion

Global Photography + Videography Market (2025): **\$100B+**

U.S. Projected Market (2030):

\$110 Billion+

Projected Global Market (2030): **250B+**

Growth Rate (over the next 5 years):

Approx 197%

Market Size

Unlike rideshare, where supply is constrained and demand-driven, photography has a massive, fragmented supply of creators that lack structure, visibility, and consistent demand.

Each transaction is based on a one-hour booking at \$100 per hour, with a 16% creator commission and 14% client booking fee, generating approximately \$30 in revenue for Moonlight per booking.

Go-to-Market Launch Plan

Moonlight's launch strategy begins in **Houston, TX**, one of the nation's fastest-growing creative and entrepreneurial hubs. The city serves as our beta and blueprint market, where we'll refine user experience, test acquisition channels, and build community credibility before scaling nationally

From Houston, we'll expand city by city into major creative markets like **Atlanta, Los Angeles, Chicago, and New York**, leveraging insights, partnerships, and press momentum gained from our initial rollout.

"Through my restaurant portfolio, I reach **160K–175K** customers annually, providing a built-in acquisition channel for Moonlight through in store promotions, incentives and referrals as we test and scale the platform in Houston."

-Jamie Allen, Founder

How Moonlight Goes to Market

Moonlighters (Creators)

- **Grassroots marketing**
- **Socials:** Using Influencers, showing real creators and stories across TikTok, IG, FB, and LinkedIn.
- **PR (Local + National):** Spotlight Moonlighters as the new creative workforce.
- **Launch Party:** Kick off each city with an experiential event.
- **Pain Points:** Gather feedback to refine product-market fit.
- **Give/Get Credit (30-Day):** Early adopters earn free bookings through referrals.

Objective: Customer acquisition hack

Photographers join Moonlight and bring their existing clients onto the platform for booking and delivery. Those clients then discover and book other creators on Moonlight, creating a compounding supply-demand flywheel.

How Moonlight Goes to Market

Consumers (App users)

- **Grassroots marketing**
- **PR (Local + National)** – Tell stories of captured moments and local wins.
- **Billboards** – High-impact placements in launch cities.
- **Emailers** – Convert browsers into repeat users.
- **Influencer Program** – Leverage creators as authentic advocates.

Objective:

"Book Now" culture

Moonlight replaces slow, fragmented search with a 'book now' culture where photographers are booked in seconds, not days

Where We Are Today

✓ Live product

- Live MVP available across iOS, Android, and web
- Currently distributed through the App Store and Google Play
- Users can discover, book, message, and pay creators directly through the platform
- Core marketplace infrastructure is fully operational, including onboarding, listings, search, messaging, bookings, and payments

✓ Real progress

- Currently in active beta with 50+ photographers, videographers, and creatives
- Testing real world bookings, creator onboarding, payments, file delivery, and communication workflows
- Continuously improving UI/UX based on live user feedback and platform usage
- Identifying and resolving bugs, edge cases, and operational inefficiencies in real time
- Building a strong foundation before large-scale market expansion

✓ Built for scale

- Marketplace architecture designed to support photographers, videographers, and creative venues nationwide
- Infrastructure designed for scalable media storage, file delivery, messaging, and payments
- Developing automation and AI-powered discovery tools to improve matching and booking efficiency
- Product designed to support future expansion into additional creative categories and Tier-1 markets
- Focused on delivering a seamless, high quality user experience for the creator economy

How Moonlight Makes Money

The Team

Jamie Allen

Founder & CEO

Built and scaled multi-million dollar hospitality concepts, specializing in demand creation and premium experiences. Now leading Moonlight's vision and platform growth.

Dexter Talbert

CTO

Product engineer with experience scaling AI and live commerce ventures. Helped drive \$15M acquisition at Due Dilly. Leads Moonlight's platform architecture.

Omar Dismuke II

Brand Architect &
Creative Director

20+ years designing global products and brand systems. Leads Moonlight's brand, UX, and digital experience from concept to launch.

Jonathan Lott

Engineering Director

Former Apple DSP engineer with deep experience in audio technology and AI innovation. Supports platform infrastructure and next-generation creator tools.

David Settle

Creator Growth

20+ year celebrity photographer with media sales background. Leads creator growth and marketplace expansion.

Raising \$1M To Scale Moonlight

Raising \$1,000,000 to accelerate product development, marketplace expansion and scalable growth infrastructure

Product Development

Building and refining the app, platform, or software (including hiring engineers, designers, and product managers).

\$510,000 (51%)

Hiring & Team Growth

Expanding the team with key roles like developers, marketers, salespeople, or operations staff.

\$155,000 (15%)

Marketing & Customer Acquisition

PR campaigns, partnerships, and other efforts to grow the user base.

\$50,000 (15%)

Infrastructure & Tools

Paying for servers (like AWS), software tools (like Slack, GitHub), and third-party services.

\$50,000 (15%)

Operations & Admin

Legal fees, accounting, HR, compliance, and basic business setup costs.

\$45,000 (4.5%)

Sales & Business Development

Building relationships, closing deals, attending conferences, or onboarding clients.

\$60,000 (6%)

Research & Development

Innovating or testing new product features or markets.

\$35,000 (3.5%)

Runway Extension

Keeping the company alive and operating until the next round of funding or profitability.

\$95,000 (9.5%)
